Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication..
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Double Patenting

1. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefore ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

2. Claims 1 – 22 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 7 – 28 of prior U.S. Patent No. 6,084,288. This is a double patenting rejection.

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington,* 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1 – 22 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 – 22 of U.S. Patent No. 6,287,942 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1 and 6 of U. S. patent 6,287,942 B1 discloses a method of sealing semiconductor devices, the method forming at least one semiconductor device on a first side of a wafer substrate, the wafer substrate having a first side, a second side and a thickness, the at least one semiconductor device having several of sides and at least two bond pads. In claim 1 also of U. S. patent 6,287,942 B1 discloses reducing the thickness of the wafer substrate from the second side thereof.

It would have been obvious to have at least one bond pad since in order to have two or more bond pads, the semiconductor device must at least have one bond pad formed.

Response to Arguments

5. Applicant's arguments filed 4 March 2003 have been fully considered but they are not persuasive for the following reasons.

Applicant contest that the present claim 1 calling for "removing a portion of the third coating" is not present in the '288 reference as set for in claim 7.

Examiner agrees that the aforementioned limitation does not appear in claim 7. However, claim 8, which is dependent on claim 7, has the recited limitation.

6. Applicant contests that present claim 6 calling for "etching of the wafer substrate" is not present in the '288 reference as set for in claim 12.

Examiner agrees that the aforementioned limitation does not appear in claim 12. However, claim 14, which is dependant on claim 12, has the recited limitation.

7. Applicant has not overcome the rejection of the present application.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
